*Rules are voted on by one member from each Official Laboratory of the Association of Official Seed Analysts and by individual voting members of the Society of Commercial Seed Technologists (SCST) in attendance at their respective business meetings. Votes in favor and those opposed are converted to percentages based on the total number of votes cast within each respective organization. The percentage designation is then dropped and the tally from each organization is added together for a cumulative total based on 200. A two-thirds majority of the cumulative tally is required to adopt a Rule proposal. To pass with two-thirds majority vote, a cumulative tally of 134 in favor out of 200 total combined points would be required.
