

Rules Committee

R. Danielson

The following changes or additions have been submitted to the Rules Committee and initially approved by them for vote by the membership at its May meeting in Iowa.

Please study these proposals carefully so that you can intelligently vote on them. I am including the name of the individuals submitting the proposals, so that you can contact them for additional information if necessary.

Any comments you may have concerning these proposals can be forwarded to the Rules Committee Chairman, Rodger Danielson, OSU Seed Laboratory, Corvallis, OR 97331.

PROPOSAL 1 was submitted by Quentin Schultz, RST, Pfizer Genetics, P. O. Box 116, Olivia, MN 56277.

This is a proposal to include kimpak as a media when testing the germination of soybeans and field corn or popcorn.

If approved, Table 3, p. 42 and 51 would have TC added to B, T, S as additional substrate.

PROPOSAL 2 was submitted by Earl Belcher, Eastern Tree Seed Laboratory, P. O. Box 819, Macon, GA 31202.

This is a proposal to delete section 12b from the description of normal tree and shrub seedlings, page 117 of the Rules.

PROPOSAL 3 was submitted by Doris Baxter, USDA Seed Laboratory, P. O. Box 1641, Sacramento, CA 95808 on behalf of the AOSA Coated Seed Subcommittee.

This is a tentative rule proposal which if finally adopted would amend the AOSA Rules as follows:

- (1) Add section 2.13, Coated seed purity procedures, to the Rules (page 27).
- (2) Add paragraph (k) Coated seed, to section 4.8 (page 33) of the Rules.

The following tentative rules have been prepared by Doris' Committee and are presented here for your information only.
