

2021 Rules Change Proposals

#	Title	Purpose
1	Definitions seed mats & tapes	To add seed format definitions for seed mats and seed tapes
2	Seed mat/tape working samples	To add instructions for obtaining submitted samples and working samples for seed mats and seed tapes (dependent on definitions being adopted)
3	Seed mat/tape kind verification	To add a procedure to Volume 1, for verification of the kind and /or cultivar under consideration when seeds are contained in seed mats or seed tapes, and to add requirements for reporting (dependent on definitions being adopted)
4	<i>Carex comosa</i>	To add <i>Carex comosa</i> , longhair sedge, to Volume 1, Table 2A of the AOSA Rules for Testing Seeds
5	<i>Carex hystericina</i>	To add <i>Carex hystericina</i> , porcupine sedge, to Volume 1, Table 2A of the AOSA Rules for Testing Seeds
6	<i>Carex sprengelii</i>	To add <i>Carex sprengelii</i> , Sprengel's sedge, to Volume 1, Table 2A of the AOSA Rules for Testing Seeds
7	<i>Carex vulpinoidea</i>	To add <i>Carex vulpinoidea</i> , fox sedge, to Volume 1, Table 2A of the AOSA Rules for Testing Seeds
8	Japanese millet	To correct the error in common name application for Japanese millet in Volumes 1 & 3, to add PSU assignment, working weights, germination testing methods, species class, and contaminating species classification for <i>Echinochloa esculenta</i>
9	<i>Carex bebbii</i>	To add <i>Carex bebbii</i> , Bebb's sedge, to Volume 1, Table 2A of the AOSA Rules for Testing Seeds
10	<i>Cannabis Sativa</i> PSU	To modify the PSU definition for <i>Cannabis sativa</i> , to include the persistent perianth that may remain attached
11	Fluorescence tolerance Table	The reference to the tolerance table for calculating ryegrass fluorescence should be Table 14I, not 14H
12	Prechill wording	To change the wording of use of prechill in the AOSA Rules to make it user friendly, flexible with maturation of seed
13	<i>Pinus sylvestris</i> media & temp	To add agar as a germination test media and add 20 degrees C as an additional germination test temperature
14	<i>Cuscuta</i> species additions	To add <i>Cuscuta approximata</i> , <i>Cuscuta gronovii</i> , and <i>Cuscuta japonica</i> to Volume 3 and assign a more appropriate common name to <i>Cuscuta planiflora</i>
15	Volume 3 Noxious additions	To add species to Volume 3 found in the July 2020 version of the State Noxious-Weed Seed Requirements
16	<i>Carex pseudocyperus</i>	To add <i>Carex pseudocyperus</i> , cypress-like sedge, to Volume 1, Table 2A of the AOSA Rules for Testing Seeds
